Centennial Cultural Center

A non-profit organization funded
by donations and grant opportunities.

Mission Statement

The Centennial Cultural Center was developed to stimulate, encourage, nurture, promote, and produce good culture and fine arts in LaSalle parish, and when possible, the social and economic environment of the area.

Jam Sessions

Bluegrass musicians like nothing better than getting together and making music. A jamming session can take place on a front porch, a parking lot or anywhere that's handy. Amateurs and professionals alike, enjoy the freedom of these impromptu gatherings, and before they can get out their banjos and guitars, they have an audience. There will be jamming on Front Street in Olla during the festival the last weekend in April: If you play or just like to listen, bring a chair and sit back and enjoy some of the best bluegrass in the south.
